COMMODITY

Shrimp

YEAR

2021

EXPORTADORA TOTAL from ECUADOR in 2021 is 10,000 metric tons, a 5% increase vs the previous year. As an exporter, it is the largest exporter of shrimp from 2 parishes, or 5% of total exports.

Recent updates to "Deforestation Exposure"

On 10 November 2022, the term 'deforestation risk' was replaced with 'deforestation exposure' as a measure of the exposure of supply chain actors to deforestation from commodity production based on sourcing patterns.

Improvements in how commodity deforestation exposure is calculated were made on 7 December 2022. Numbers accessed before that date will differ from those accessed after.

For more information, see [Commodity deforestation exposure and carbon emissions assessment](#).

I UNDERSTAND

largest exporter of shrimp with a 5% increase vs the SEAFOOD S sources
